

Operating Guide: Cleaver-Brooks 100HP Heating Boiler (BOILER-01)

Asset ID: BOILER-01 | **Location:** Basement Boiler Room

Model: Cleaver-Brooks CB-LE 100HP Firetube Steam/Hot Water Boiler

Fuel Type: Dual Fuel (Natural Gas / #2 Fuel Oil Backup)

Operating Parameters & Technical Specs:

- **Operating Steam Pressure:** 12 – 15 psig (High Limit Pressure Switch: 18 psig)
- **Operating Water Temp:** 180°F Supply / 160°F Return (Delta T: 20°F)
- **Flue Gas Temp:** 320°F – 350°F at high fire.
- **Combustion Efficiency:** Target O2 level 3.5% – 4.5%.

Safety & Annual Tune-Up Protocols:

1. **Low Water Cut-Off (LWCO) Test:** Perform daily blowdown of primary and secondary float controls.
2. **Flame Safeguard Lockout:** Inspect igniter electrode gap (1/8 inch) and UV flame scanner lens.
