

Technical Manual: Otis SkyRise High-Speed Elevator (ELEVATOR-02)

Asset ID: ELEVATOR-02 | **Location:** Central Core Shaft

Model: Otis SkyRise High-Speed Passenger Elevator | **Capacity:** 3,500 lbs (24 Passengers)

Rated Speed: 1,200 FPM (Feet per Minute)

Operating Parameters & Safety Thresholds:

- **Hoist Rope Tension:** Equalized within +/- 5% across all 6 steel traction cables.
- **Brake Holding Torque:** 150% of full rated elevator load.
- **Door Reopening Sensor:** 3D Infrared Curtain Sensor alignment mandatory.

Troubleshooting & Maintenance Procedures:

1. **Brake Chatter or Rough Stopping:** Inspect brake pad thickness (>6mm required). Clean traction sheave grooves.
2. **Door Nudging Mode / Misalignment:** Recalibrate optical edge sensors and verify door retractor cable tension.
